Professional Summary

AI/ML Engineer and Computer Science undergraduate with hands-on experience in Machine Learning, Deep Learning, NLP, Generative AI, Data Analytics, and Software Development. Smart India Hackathon 2025 Grand Finalist with expertise in Python, TensorFlow, PyTorch, Scikit-learn, SQL, Linux, REST APIs, predictive modeling, feature engineering, and end-to-end ML pipeline development.

Technical Skills

Languages: Python, Java, SQL, Bash Scripting

AI/ML: Machine Learning, Deep Learning, Neural Networks, NLP, Generative AI, LLMs, Prompt Engineering, Predictive Modeling, Feature Engineering, Sentiment Analysis

Frameworks/Libraries: TensorFlow, PyTorch, Scikit-learn, Pandas, NumPy, Gradio, TextBlob, VADER

Tools: Git, GitHub, Linux, PostgreSQL, REST APIs, Cloud API Integration, RPA, Arduino Robotics

Core Concepts: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks, Software Engineering, Model Deployment, MLOps Fundamentals

Experience

AI/ML and Data Science Intern | Technex, IIT (BHU), Varanasi

Oct 2025 – Nov 2025

- Developed predictive and classification models using TensorFlow and Scikit-learn on real-world datasets, improving model performance and convergence efficiency.
- Automated data preprocessing, feature engineering, and exploratory data analysis workflows, reducing manual effort by 30%.
- Built **TypeFix**, an NLP-powered grammar and spelling correction system with automated error detection and intelligent content recommendations.
- Created statistical validation modules and visualization dashboards to improve model interpretability and analytical insights.

Outreach & PR Head | GeeksforGeeks Campus Body, BIT Gorakhpur

Jul 2025 – Sept 2025

- Led outreach campaigns and institutional collaborations, increasing engagement and participation across technical initiatives.
- Organized coding workshops, hackathons, and industry interaction sessions benefiting 500+ students.

Projects

Audio Language Model (SIH 2025 Grand Finalist)

Python, PyTorch, NLP

- Developed an AI-powered voice interaction system using Natural Language Processing for intelligent query understanding and response generation.
- Recognized as a National Grand Finalist in Smart India Hackathon 2025 for innovation and real-world impact.

AI Social Media Caption Generator

Generative AI, Gradio, Python

- Built an LLM-powered caption generation platform achieving approximately 85% content relevance accuracy.
- Developed a scalable Gradio interface for real-time SEO-friendly content creation.

Mental Health & Mood Tracker

Sentiment Analysis, PostgreSQL

- Built an AI-powered mood tracking platform using VADER and TextBlob sentiment analysis techniques.
- Implemented secure PostgreSQL-based storage and trend visualization for personalized wellness insights.

Additional Project: Linux GPA Calculator

Bash Scripting, Linux

- Developed a command-line GPA/CGPA calculator using Linux shell scripting and dynamic credit-based computation logic.

Achievements & Certifications

- Grand Finalist – Smart India Hackathon (SIH) 2025 | Finalist – Hacknovate 7.0 (ABESIT Engineering College).
- Winner – TechSprint GNIOT GdG Hackathon | Winner & Runner-Up – TECH YUVA 9.0 (2024–25).
- Shortlisted for Innovation, Design & Entrepreneurship (IDE) Bootcamp, JIET Jodhpur (MoE Innovation Cell).
- Certifications: RPA Bootcamp (NIELIT Gorakhpur), AI Workshop (IIT Delhi TRYST), Machine Learning & Data Science Training.

Education

Buddha Institute of Technology, Gorakhpur (AKTU)

2023 – 2027

Bachelor of Technology in Computer Science & Engineering (Artificial Intelligence & Machine Learning)

Relevant Coursework: Data Structures & Algorithms, Machine Learning, Deep Learning, Artificial Intelligence, Database Management Systems, Operating Systems, Computer Networks, Software Engineering, Data Mining, Statistical Computing.
